PROFESSIONAL SUMMARY

Software Engineer (2.8+ yrs) specializing in the React Ecosystem (Next.js, Native, Electron). Expert in performance optimization (TanStack Query, Zustand), multi-tenant SaaS architectures, and SEO. Proven track record delivering POS systems and scalable ERP solutions.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3.

Frontend & Desktop: React.js, Next.js, Electron.js, Vite, Tailwind CSS, ShadCN UI.

Mobile Development: React Native (iOS/Android), Expo.

State & Performance: Zustand, Redux Toolkit, TanStack React Query, Reactotron, Lighthouse.

Backend & Tools: Node.js, Express.js, Strapi CMS, Python (Integration), Git.

PROFESSIONAL EXPERIENCE

Software Engineer | Nasscript Software Innovations | Remote | Aug 2025 – Present

Enterprise ERP SaaS: Architected a multi-tenant ERP (POS, Accounts, Sales) using React & Vite, enabling custom workflows and automated invoicing for diverse clients.

Desktop & Mobile POS: Engineered Restaurant POS systems (Electron.js & React Native) with seamless data sync via Python backends.

Tourism Ecosystem: Built a tourism suite featuring a React admin dashboard and three React Native apps (User, Driver, Supervisor) with payment integration.

CRM Solutions: Developed a Car Detailing CRM to automate job cards and cost estimation using Strapi for flexible content management.

Performance: Migrated state to Zustand & TanStack Query (cutting server load 40%) and optimized Next.js SEO to 90+ Lighthouse scores.

Junior Software Engineer | Zlight Research Pvt Ltd | Ernakulam | July 2023 – July 2025

Booking Platform (Zearch): Led frontend for a customizable auditorium/parking booking engine using Next.js, allowing real-time slot management.

Optimization: Integrated Python APIs and refactored code splitting, reducing page load times by 25% and enhancing booking flows.

PERSONAL PROJECTS

Blood Donor Management System | React, Node.js, MongoDB

Developed a full-stack platform connecting donors/patients with real-time availability filters and secure authentication.

Work Permit System | React, Node.js, Express

Built a digital permit processing application to streamline document verification and replace manual paperwork workflows.

EDUCATION

Master of Computer Applications (MCA) | IGNOU | 2022 – Present

B.Sc. Computer Science | University of Calicut | 2018 – 2021
